War thunder best sound mod

Was going to try a gun sound mod (and engine sounds maybe), for the sake of something different. Anyone have any suggestions or favorite for any particular reason? Second question would be; do audio files from mods typically get broken every WoT patch?Thanks! yes. BROKEN.every patch. just be aware of that going in. MacAfee tells me Aslan's is bad mojo. I refuse to play with gnomefathers engine and gun sounds. I don't know why they keep such bland, boring audio in a game this old. WT does it right, this game simply doesn't care. It really helps make the game more exciting. Any audio mod you install, make sure to restart the game after loading it the first time otherwise it won't work right. I did notice the gnomefathers one, and there is a War Thunder choice also (among a few others). Have you checked out any of the others by chance? (Regarding McAfee.....I uninstalled third party antivirus crap years ago. Caused more headaches than they were worth imo. The Windows protection stuff is good enough) Edited by Crazy___Canuck, Dec 24 2020 - 01:20. I use Gnomefathers gun and engine sounds (2 separate mods), the guns sound powerful and some of the engines like the T95 and the Super Pershing have a very throaty rumbling sound and you can hear the wheels and bogies squeaking and with Lowry every time you move the tank you get this loud Vroooom sound, i won't use any other sound mods if i can help it. The engine sounds are kind of secondary, since a lot of these vehicles there is no recording of what it would sound like anyways, but it does give more variety (leo pta and leo 1 sound amazing and many of the US tanks have real engine sounds) Gun sounds goes hands down to GF though, the WT version only has a few distinct guns. The pack makes me jealous of the Chieftain players, it has a very unique firing sound. Astralite, on Dec 24 2020 - 01:22, said: I tried all of the ones available on aslains, and I like GF the best. Merry Christmas (and what that means to you) to everyone I tried a few of them in the Aslain list, and I didnt care for em...oh I've never had any problems with Aslains site with regards to security. I used to run Gnomefathers, then I switched to WWII day after day, now I'm using Siczfanzlers engine sounds and War mod gun sounds with Armored Warfare crew sounds. All from Aslain's. My final selected sound packs give what i'm looking for. I loved WWII day after day engine sounds because they were the most unique but it's not available now. Good. I installed this mod 2 weeks ago and i'm still playing with it.What else can i say?It's great!- The sounds are clear- I had no issues like lags/micro freezes or stuff like that, so it runs very stable- The variation of gun sounds is fairly ok Sometimes it can happen that a sound is "sucked" by another sound (mostly when two tanks shoot nearby at the same time), but its not that dramatic.So, i hope u are continuing this mod for the next patches, or maybe some updates when its out of the beta.
